Our Vision

All students in Hamilton have universal access to healthy foods in school and community environments to improve student success, support healthy growth, development, and lifelong eating habits.

Student nutrition programs offer breakfasts, snacks, and/or lunches at school, allow students to eat with their friends and enjoy a variety of healthy foods in a friendly and nurturing environment.

Partnership is the key to program success. To effectively achieve universal access to healthy food in Hamilton schools, we need to bring together the knowledge, skills, and effort of various community partners.
